

2023 Men's League

2 Man Format

All play must be on Thursday's designated 9 holes.

All league information will be online and updated weekly.

- 2-person teams play against a scheduled team each week. They do not have to play at the same time but may if they agree.

- 90% of handicap will be used throughout the season and playoffs.

Teams will be broken into divisions by combined handicap.

- **Each match is worth 10 points**, breakdown:

- High and Low handicap players play each other.

- **Low handicaps**

2 points for lowest net score.

2 points for match play winner between A players (using strokes where they fall)

- **High handicaps**

2 points for lowest net score.

2 points for match play winner between B players (using strokes where they fall)

- Team: Add the net scores for team 1 and team 2.

The team with the lowest combined net score wins 2 points.

- No shows lose all 10 points. The team that shows up gets 7.5 Points. If neither team shows it is 0 points for each. If only 1 player from team "A" shows and both from team "B" shows, then the most points team "A" can win is 4 points for the person's individual match. They would play who they normally would have played if the other team member was there.

- **Teams may have 2 subs for regular season, 1 sub max for playoffs.**

16 Week regular season (May 4-Aug 17)

Playoffs: Top 32 team bracket based on points won during season for playoffs seeding. (Aug 24-Sept 21)
