- Use your Average Driver Distance to Select your Tee
- New tee box colors– blues are now black, white is now blue, silver is now white, gold is still gold, red is now silver, and green is still green.

Rich Spring Golf encourages players to play from a set of tees best suited to their playing ability. In addition to providing more enjoyment for golfers, teeing it forward also can be one of the most important steps that golfers take in improving the pace of play. As a guideline, you should be able to consistently and comfortably reach each green in regulation from the tees you choose to play. Take into account the playing conditions for that day. If weather conditions are causing the course to play longer, factor in the loss of distance and select your tees accordingly. New tee box colors have been voted in – they are shown below, blues are now black, white is now blue, silver is now white, gold is still gold, red is now silver and green is still green.
